

# GPU Computing Platforms

*World Class Server Platforms*

**Industry leading hardware manufacturer, providing servers, technical workstations, and supercomputing clusters through worldwide distribution channels.**

## ◆ About TYAN

TYAN is a world class provider of server motherboards and server platforms. Founded in California's Silicon Valley in 1989, TYAN has been bringing innovation and reliability to the server industry for nearly 30 years. As a leading server manufacturer owned by MiTAC Computing Technology Corporation, TYAN is a core business unit of the MiTAC Group.

As a leading manufacturer, TYAN provides systems integrators and value added resellers with market leading products to build and customize their servers worldwide. By offering a full range of server products and accessories, TYAN enables customers to apply their expertise and bring value to their solutions. TYAN prides itself in supplying the channel with building block products.

Many customers have had their TYAN-based products recognized within their industries, covering a wide range of markets such as HPC, hyper-scale/data center, server storage and security appliances.

TYAN has locations spanning the globe, from North America to Asia Pacific and Europe, including R&D, distribution, local support, inventory and sales.

## ◆ TYAN Brand Lines

**TYAN has a number of server product lines designed to suit a wide range of applications specially tailored to meet the needs of our channel and system integration partners.**

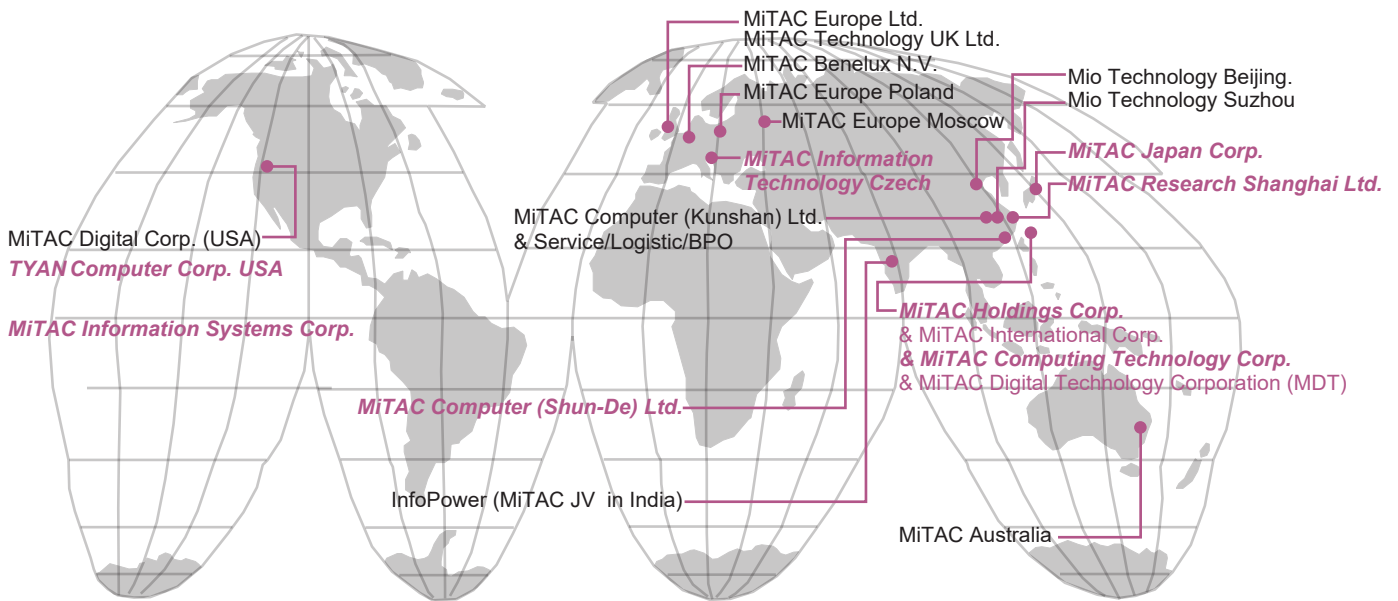

TYAN's Thunder \ Tempest \ Transport and Tomcat products span the following four segments:

- SX** – Storage
- HX** – HPC
- CX** – Cloud
- EX** – Embedded

TYAN is continually developing new servers. Check our website at [www.tyan.com](http://www.tyan.com) to stay up to date with our latest product offerings.

## ◆ MiTAC Global Presence & TYAN Branch Offices

### Thunder

- Server barebones based on Intel's latest technology including Intel® Xeon® Scalable Processors
- Designed to offer best-in-class server technology with remote management capability
- Built to inventory
- Warehoused in US, EU, and China

### Tempest

- Motherboards based on Intel's latest world-class server technology
- Fits off-the-shelf (OTS), industry standard chassis
- Tested with the highest standards for design and quality
- Built to inventory
- Warehoused in US, EU, and China

### Transport

- Server barebones based on AMD's latest ZEN architecture including the AMD EPYC processor
- Designed to offer best-in-class server technology with remote management capability
- Built to inventory
- Warehoused in US, EU, and China

### Tomcat

- Motherboards based on AMD's latest ZEN server architecture
- Fits off-the-shelf (OTS), industry standard chassis
- Tested with the highest standards for design and quality
- Built to inventory
- Warehoused in US, EU, and China
